ATI Item Search Results Page

The screenshot shows the Ohio State University Library Catalog search results page. The search term 'crops' is entered in the search box, and the results are sorted by 'relevance'. The first result is 'Irrigation of agricultural crops / co-editors, R.J. Lascano, R.E. Sojka'. The second result is 'Comparative environmental impacts of biotechnology-derived and traditional soybean, corn, and cotton crops / Janet Carpenter ... [et al.]'. The callouts point to the search box, the sort options, the first result's details, and the status of the first result.

The search box in the middle of their homepage searches all libraries worldwide.

It is a keyword search by default. Results will first show OSU items (any OSU library, not just ATI), then OhioLINK items, then other libraries across the world.

Enter search terms into the search box. Use quotation marks to search for a specific phrase.
